PROPOSALS

For Publishing, by Subscription,

THE COMPLETE WORKS OF

SIR WALTER SCOTT:

With a Biography: being the first American (and only) edition which contains the Author's last additions and illustrations, arranged upon their respective pages.

A COMPLETE and uniform edition of the various productions of the great 'Minstrel of the North,' is a *desideratum* with the American public. No library is complete without them, and no edition extant is sufficiently compact for such a repository; while the endless number of editions, *without any uniformity in size,* heretofore published, besides being exceedingly cumbrous, are far too voluminous and expensive to be within the reach of the great majority of readers. The undersigned therefore announce, that they have now in press, and will issue, an edition of the Works of Sir Walter Scott, which will embrace all his Poems, Novels, Histories, Biographies, and Fugitive Compositions, as well as the Biography and Private Correspondence, now in the course of publication in England, under the superintendence of Mr. Lockhart.

1st. In Parts: each Part embracing as much matter as is contained in two volumes of the present editions of the Waverley Novels, which will be put at the unprecedented low price of THIRTY SEVEN AND A HALF CENTS.

2d. Two parts will appear each month; but should the publishers find the work to meet the patronage they anticipate, FOUR PARTS will be issued monthly.

3d. The whole will be completed in *seven volumes,* or *forty eight parts.*

The paper on which the above is now printing, has been made expressly for the purpose; the present parts may, therefore, be considered a fair specimen, in every respect, of the whole work; but, should dissatisfaction arise with any subscriber, owing to an inferior article being offered, he may discontinue at any time, and have the amount paid returned.

Note.—The publication of the first volume is deferred until the receipt of the Biography, Private Correspondence, and the New Edition of the Author's Poetical Works, with 'contemporary criticism—various readings—and correspondence with some of the most eminent persons of the time when the Poems first appeared,' now in the course of publication in England.

Volume 1 will be ornamented with an excellent Portrait of Sir Walter Scott.

DAILY PITTSBURGH GAZETTE.

WEDNESDAY AFTERNOON, OCT. 2, 1833.

THE AMALGAMATION.—In the Statesman of this morning, we have the following editorial remark:

"For a satisfactory and conclusive reply to the article in the Gazette, we refer our National Republican friends to the article signed by a member of the "Young Men's Association." The writer gives substantial and valid reasons, why National Republicans should not support the Antimasonic Ticket."

Upon turning to this article, which professes to contain a formal expose of the reasons which govern the National Republicans in their union with the Jacksonites, we find it stated that the National Republicans, in October last, voted for Ritner and for the Antimasonic ticket for the Legislature. The writer then proceeds as follows:

"When the Presidential election came on, instead of assisting us in our struggle for measures —instead of voting for their *own ticket!* the *Antimasons*, having by *our votes* secured the county offices, laughed at and derided us; declaring that they owed us no obligation, that it was *Antimasonic* influence exclusively, that elected their ticket. Thus were National Republicans insulted, and their efforts requited with treachery and duplicity! Further; when the election for United States' Senator came up in the Legislature; when the contest was between our other favorite, JOHN SERGEANT, and Samuel M'Kean, and there was no possibility of electing Mr. Rush, what was the conduct of our *Antimasonic* representatives, the men elected and sent there by *our votes?* Did they show a particle of magnanimity?"

Now this whole excuse is shallow, flimsy, and deceptive.—Some of the Antimasons, who had been original Jacksonites, returned to their first love, and voted for the Jackson ticket; for this reareason, the Clay men now, in a body, go over to the Jackson Van Buren party; the friends and admirers of Henry Clay, in solid column, unite with those who calumniated and *burnt him in effigy in our streets.*—Yes, such is the flimsy pretext offered by a National Republican *young* man for uniting with the men who calumniated their candidate, *who burnt him in effigy*, and *insulted him in our streets.*

But there is another reason—the friends of *Richard Rush*, thirty seven in number, would not desert him and go for *John Sergeant*, who had not half as many supporters in the Legislature. Would it not have been quite as reasonable to expect Mr. Sergeant's small party to go over to the larger party of Mr. Rush?

The *young* National Republican seems greatly concerned about their "*other favorite*," "*John Sergeant*," and pretends that because the Antimasons, nine months ago, would not support him, National Republicans are bound to unite with the *burners of Clay's effigy.*—If our young National Republican will only extend his vision to Philadelphia, he will there see their "*favorite*," John Sergeant opposed and calumniated by the associates and fellow Jacksonites of Lynch, and Gallagher, and Mulvany.

But our *young* Republican has a singular memory—he forgets the calumnies which the Jackson party have been pouring out for years against Clay—he forgets the effigy of Clay, which was burnt by the same Jackson party in our streets, some years ago. He forgets, or does not regard, the bitter opposition of the Jackson party to John Sergeant at this very moment in Philadelphia. But he recollects, very distinctly, that the *thirty seven* friends of Rush would not fly from their candidate and unite with the *eighteen* friends of Sergeant. This is an unpardonable sin!!

"Bah! it smells rank of falsehood!"

This is all mere pretext, a mere cover to the truth, the real inducement for Shaler, and Riddle, and Scott, and the McCandlesses, uniting with Lynch, and Mulvany, and Wynne, and Gallagher, is different from the ostensible. The editor of the Allegheny Democrat, with a blundering honesty, has perhaps hit upon the true reason. In an article, complimentary to the National Republicans, (wonderful! Johns complimenting the Clay party!!!) he says the true question—

"Is not whether the U. S. Bank shall be rechartered, the tariff system sustained, or any other national measure adjusted; *but it is whether proscriptive antimasonry shall gain the mastery.*"

We publish, to day, the report of the Government Directors of the Bank of the United States. The James Wilson, to whom the sum of $1,447 was paid, for printing documents, was the *late senior* editor of the Pennsylvania Advocate, a man, to whom our readers are well aware that we have no partiality. This money probably went to establish a rival press, of which, its editor asserted, we entertained "undisguised jealousy." More reliance might therefore be placed upon our sincerity, when we declare our full conviction, that the Bank was justifiable in circulating official documents, in reply to the thousand calumnies that were belched forth against that institution. They only did what the friends of Religion, of Temperance, of Slavery, of Manufactures, and various other interests, continually do. As to Mr. Wilson's conduct in making the matter mysterious, by his affidavit, that is another matter.

We will say more on this subject after the election.

From the Washington Globe.

REPORT

Of the Government Directors of the Bank of the United States to the President, relative to the Printing Expenses of that Institution, referred to in the paper read to his Cabinet on the 18th of September, 1833.

To the President of the United States:

PHILADELPHIA, August 19, 1833.

SIR—We had the honor to receive your letter of the 3d instant, directing us to examine and report upon the Expense Account of the Bank of the United States, for the last two years. Those of us to whom it was addressed, requested the attendance of our colleague, Mr. McElderry, to assist us in the examination. On his arrival, we proceeded to investigate the various charges, and to look into such of the vouchers on which they were founded, as we had time and opportunity to do. These are so numerous, and embrace so many small items of various kinds, that a full view of them can only be given to you, by transmitting copies, made by some person authorized or requested by you or the Secretary of the Treasury. The time and labor necessary for this mode, would have prevented our resorting to it at present, even had you authorized us to do so, for we have believed it would be more consistent with your wishes, that we should at once report the result of our own labors, leaving you to decide, after you shall have been acquainted with them, whether such a more minute statement of the Expense Account be requisite. We may add, too, that finding the particulars of many expenditures were to be ascertained, only by an investigation of numerous bills and receipts, we requested, at the Board, that the Cashier might furnish such a statement of them as might be susceptible of ready examination; but as the request was not complied with, we were obliged to depend entirely on our own partial enquiries. These facts we mention, merely to guard against any deficiency you may observe in our remarks, and any inaccuracies, should there be such, in the details which we communicate.

As the Expense Account embraces the various expenditures for salaries, making and issuing notes, transportation of specie, buildings, repairs and taxes on real estate, stationery, printing, and contingencies of all kinds—it is necessarily so large and intricate, that we deem it expedient at present to confine our investigation to that portion which embraced expenditures, calculated to operate on the elections, as they seemed to be the objects of enquiry suggested by you. All expenditures of this kind, introduced into the Expense Account, and discovered by us, we found to be so far as regards the institution in this city, embraced under the head of Stationery and Printing.—To it, therefore, we chiefly directed our inquiries, and an examination of that item of the account, for the last three years, undoubtedly presents circumstances which, in our opinion, fully warrant the belief you have been led to entertain.

The Expense Account is made up at the end of every six months, and submitted with the vouchers to the Dividend Committee, for examination.—Commencing with the last six months of the year 1829, we find that the sum paid for Stationery and Printing amounted to $3,765 94, which we presume to be the necessary expense of the institution, under this item, when no extraordinary disbursements are made. During the year 1830, the expenditures increased to $7,131 27, during the first, and $6,950 20 during the last half year, and entries are made in both, of large sums, making together about $7,000, paid for printing and distributing Mr. M'Duffie's report and Mr. Gallatin's pamphlet. These seem to be the commencement of a system of expenditure, which was, the next year, immensely increased, and received the sanction of the Board, as appears by the entries on the minutes, and two resolutions passed at the close of this year and in the succeeding spring.

On the 30th November, 1830, it is stated in the minutes, that "the President submitted to the Board a copy of an article on Banks and Currency, just published in the American Quarterly Review, of this city, containing a favorable notice of this institution, and suggested the expediency of making the views of the author more extensively known to the public, than they can be by means of the subscription list—whereupon it was, on motion, Resolved, That the President be authorized to take such measures, in regard to the circulation of the contents of the said article, either in whole or in part, as he may deem most for the interests of the Bank." On the 11th March, 1831, it again appears, by the minutes, that "the President stated to the Board, that in consequence of the general desire expressed by the Directors, at one of their meetings of the last year, subsequent to the adjournment of Congress, and a verbal understanding with the Board, measures had been taken by him, in the course of that year, for furnishing numerous copies of the reports of General Smith and Mr. McDuffie, on the subject of this Bank, and for widely disseminating their contents through the United States; and that he has since, by virtue of the authority given him by a resolution of this Board on the 30th of November last, caused a large edition of Mr. Gallatin's essay on Banks and Currency to be published and circulated, in like manner, at the expense of the Bank. He suggested, at the same time, the propriety and expediency of extending, still more widely, a knowledge of the concerns of this institution, by means of the republication of other valuable articles, which had issued from the daily and periodical press—whereupon it was, on motion, Resolved, That the President is hereby "authorized to cause to be prepared and circulated, such documents and papers as may communicate to the people information in regard to the nature and operations of the Bank."

In pursuance, it is presumed, of these resolutions, the item of stationery and printing was increased, during the first half of the year 1831, to the enormous sum of $29,979 92, exceeding that of the previous half year by $23,000, and exceeding the semi-annual expenditure of 1829, upwards of $26,000. The Expense Account itself, as made up in the book which was submitted to us, contained very little information relative to the particulars of this expenditure, and we are obliged, in order to obtain them, to resort to an inspection of the vouchers. Among other sums, was one of $7,801, stated to be paid on orders of the President, under the resolution of 11th March, 1831, and the orders themselves were the only vouchers of the expenditure which we found on file—some of the orders, to the amount of about $1,800, stated that the expenditure was for distributing Gen. Smith's and Mr. McDuffie's reports, and Mr. Gallatin's pamphlet; but the rest stated generally that it was made, under the resolution of 11th March, 1831. There were also numerous bills and receipts for expenditures to individuals, among them of Gales & Seaton, $1,300 for distributing Mr. Gallatin's pamphlet; of William Fry, for Garden & Thompson, $1,675 75 for 5,000 copies of Gen. Smith's and Mr. McDuffie's reports, &c.; of Jesse Harding, $440 for 11,000 extra papers; of the American Sentinel, $125 74 for printing, folding, packing, and postages on 3,000 extras; of William Fry, $1,830 27 for upwards of 50,000 copies of the National Gazette, and supplements containing addresses to the members of the State Legislatures, review of Mr. Benton's speech, abstracts of Mr. Gallatin's article from the American Quarterly Review, and editorial articles on the Project of a Treasury Bank; of James Wilson, $1,447 75 for 25,000 copies of the reports of Mr. McDuffie and Mr. Smith, and for 25,000 copies of the address to members of the State Legislatures, agreeably to order and letters from John Sergeant, Esq.; and of Carey and Lea, $2,850 for 10,000 copies of Gallatin on Banking, and 2,000 copies of Professor Tucker's article.

During the second half year 1831, the item of stationery and printing was $13,224 87, of which $5,010 were paid on orders of the President, and stated generally to be under the resolution of 11th March, 1831, and other sums were paid to individuals, as in the previous accounts, for printing and distributing documents.

During the first half year of 1832, the item of stationery and printing was $12,134 16, of which $2,150 are stated to have been paid on orders of the President, under the resolution of 11th March, 1831. There are also various individual payments, of which we noticed $106 38 to Hunt, Tardiff & Co., for 1,000 copies of the Review of Mr. Benton's speech, $200 for 1,000 copies of the Saturday Courier, $1,176 to Gales & Seaton, for 20,000 copies of "a pamphlet concerning the Bank," and 6,000 copies of the minority report relative to the Bank; and $1,800 to Matthew St. Clair Clarke for "300 copies of Clarke and Hall's bank book.

During the last half year of 1832, the item of stationery and printing rose to $26,543 72, of which $6,350 are stated to have been paid on orders of the President, under the resolution of 11th March, 1831. Among the specified charges we observe $821 78 to Jesper Harding, for printing a review of the veto; $1,371 03 to E. Olmstead, for 4,000 copies of Mr. Ewing's speech, Bank Documents, and Review of the Veto; $4,106 13 to Wm. Fry, for 63,000 copies of Mr. Webster's speech, Mr. Adams' and Mr. McDuffie's reports, and the majority and minority reports; $295 for 14,000 extras of "the Protector," containing Bank Documents; $2,583 30 to Mr. Riddle, for printing and distributing Reports, Mr. Webster's speech, &c.; $150 12 to Mr. Finnall, for printing the speeches of Messrs. Clay, Ewing, and Smith, and Mr. Adams' report; $1,512 75 to Mr. Clark, for printing Mr. Webster's speech, and articles on the Veto; and $2,422 65 to Nathan Hale for 52,000 copies of Mr. Webster's speech. There is also a charge of $5,040, paid on orders of the President, stating that it is for expenses in measures for protecting the Bank, against a run on the Western Branches.

During the first half year of 1833, the item of stationery and printing was $9,093 59, of which $2,600 are stated to have been paid on orders of the president, under the resolution of 11th March 1831. There is also a charge of Messrs. Gales & Seaton of $800, for printing the Report of the Exchange Committee.

Having made this examination of the expense Account, we are not only struck with the large sum that had been expended, under the head of Stationery and Printing, in the two years to which you refer, but also to the evident necessity there was, that the accounts should be so stated, as to enable the Directors and Stockholders to ascertain the particular sums of money paid, the quantity and names of the documents furnished, and the expenses of distribution and postage. With this object we stated, at the last meeting of the Board, the result of our examination of the expense Account, and submitted the following resolutions:

"Whereas it appears by the Expense Accounts of the Bank for the years 1831 and 1832, that upwards of eighty thousand dollars were expended and charged under the head of Stationery and Printing during that period—that a large proportion of this was paid to the proprietors of the newspapers and periodical journals, and for the printing, distribution and postage of immense numbers of pamphlets and newspapers—and that about twenty thousand dollars were expended, under the resolutions of 30th November 1830, and 11th March 1831, without any account of the manner in which, or the persons to whom, the same were disbursed. And, whereas it is expedient and proper, that the particulars of an expenditure, so large and unusual, which can now be ascertained only by the examination of numerous bills and receipts, should be so stated as to be readily submitted to, and examined by, the Board of Directors and the Stockholders: Therefore, Resolved, That the Cashier furnish to the Board, at as early a day as possible, a full and particular statement of all these expenditures, designating the sums of money paid to each person, the quantity and names of the documents printed by him, and the charges for the distribution and postage of the same; together with as full a statement, as may be, of the expenditures on orders, under the resolution of the 30th November 1830, and 11th March 1831. That we ascertain whether expenditures of the same character have been made at any of the offices, and, if so, procure similar statements thereof, with the authority on which they were made. That the said resolution be rescinded, and no further expenditures made under the same."

These resolutions were postponed on the motion of one of the directors, for the purpose of introducing a substitute for them, by the vote of all present, except ourselves and one other member of the Board. The resolution substituted was as follows: "Resolved, That the board have confidence in the wisdom and integrity of the President, and in the propriety of the resolutions of the 30th November 1830, and the 11th March 1831, and entertain a full conviction of the necessity of a renewed attention to the object of those resolutions; and that the President be authorised and requested to continue his exertions for the promotion of said objects."

Viewing this as indicating an intention (which was indeed avowed) to continue, and even extend, the system of lavish expenditure, and to authorise disbursements, the particulars of which could not be clearly ascertained, either by the board or their constituents. And regarding it also as evincing a desire to encounter our remonstrances, against the continuation of such a system, by a reference to the personal character and motives of the President of the institution (which were not drawn into discussion or question by us) we offered, as an amendment, the following resolutions:

"Resolved that while this board repose entire confidence in the integrity of the President, they respectfully request him to cause the particulars of the expenditures, made under the resolutions of 30th November 1830, and 11th March 1831, to be so stated, that the same may be readily submitted to and examined by the Board of Directors and the Stockholders.—Resolved, that the said resolutions be rescinded, and no further expenditures be made under the same." This amendment met with the same fate as our previous resolutions, being rejected by the same vote, and the resolution offered as a substitute was passed.

These, sir, are the circumstances attending the best examination we have been able to make, in regard to the matters referred to us, by your letter of the 3d inst. Should they not prove sufficiently minute, or our report sufficiently explicit, we must infer, from the course pursued by the Board, when our resolutions were submitted to them, that a more exact statement can only be obtained, by an agent directly authorized by the Executive. We have the honor to be

FROM SMYRNA.

The arrival of the brig Neptune, at Boston, has furnished us with dates from Smyrna, somewhat later than before received, but accounts from Constantinople had been anticipated by our papers from England and France.

The rumor, that a treaty of alliance, offensive and defensive, between the Grand Seignior and the Emperor of Russia, was concluded just before the departure of Count Orloff from Constantinople is again mentioned, and it is said that this was the subject of the frequent interviews which took place between this Minister and the principal members of the Ottoman government.—*N. Y. Com. Adv.*

—

Before the departure of the Russian forces, Lt. General Moravieff caused an obelisk to be erected at Unkian Skelessi, with an inscription bearing the date of the arrival of the Russian expedition in the Bosphorus, and the causes which induced their presence.

His Excellency, Ahmet Pacha, it is said, will set out immediately for St. Petersburg, whither he will go in quality of Extraordinary Ambassador, to thank the Emperor of Russia, in the name of His Highness, for the prompt assistance which he afforded him in the time of the crisis in which he found himself involved. It is thought, also, that the journey of Ahmet Pacha has for its object the ratification of the Treaty by his Imperial Majesty.

The last news received from Egypt represents Mehemet Ali as more and more satisfied with the issue of his affairs, and as improving the first moments of peace to put in execution a part of the vast projects which he has conceived. He continues actively engaged in building vessels of war, and has no intention of disarming any of his fleet. This appears the more surprising, as the exhausted state of his treasury is extreme, and he needs the utmost care and economy to enable him to meet his most urgent expenses, and his subjects are so oppressed and reduced to such a state of misery that he cannot expect any resources from them for a long time.

The departure of the Russians has caused a great change in the market of Constantinople, and the prices of provisions and articles of the first necessity have fallen considerably.

The Government is actively engaged in arming the fleet, and three new frigates have just joined those at Besicktash. Munitions of war of all kinds are constantly shipped; indeed every thing seems to indicate the approach of the departure of the Ottoman naval forces. What is its destination? This is a question which every one asks and nobody can answer.

The intelligence which the Government has received from Servia, appears to be of a much more encouraging nature than heretofore. It is said that they deem it unnecessary to send any considerable forces there, and a few battalions will be sufficient to preserve order in that province.

The African Expedition.—Letters have been received from Mr. Lander, dated Fernando Poo, May 9. Our readers had been already informed of the expedition having entered the river Niger. It appears that the crew had caught the fever on the coast and that they carried the infection with them.—During the first month not less than twenty deaths occurred among the persons composing the expedition; in the second, five. Of the officers only three remained, alive, namely, Messrs. Laird and Lander and Lieut. Allen. Mr. Briggs, the only son of Dr. Briggs, of this town, is among the dead. As the survivors had become seasoned to the climate, it was hoped that few, if any additional deaths would occur.

Mr. Lander left the steam boats, on the 14th of April, about 400 miles up the Niger, opposite the mouth of Lake Tschad. The object of his voyage to the coast was to procure necessaries, &c.

The country on the banks of the Niger was found to be highly fertile, and capable of being made to produce all kinds of tropical fruits, &c.—The natives had received the expedition in the most friendly manner, and an amicable intercourse between them had taken place. One of the native kings, or chiefs, had visited the steamers, and was surprized and delighted with what he saw. He returned the compliment by inviting the officers to an entertainment on shore. At this *fete* his majesty produced two men, whom he was about to offer as a sacrifice, in honor of the visit of the white men. He was, however, entreated to spare the victims, and yielded to the entreaties of his new friends, with a truly royal grace.

The letters speak, we understand, very confidently of the ultimate success of the commercial objects of the expedition. Had it not been for the ravages caused by the fever, the most complete success would, ere now, have attended the enterprize.

[The Athenæum states that Lander was expected in England in September or October.]

From Na chez.—Our readers will recollect that, a few weeks ago, we mentioned that a ship, "called the St. Louis," had sailed from New York for "*the Port of Natchez.*" We have now the satisfaction of announcing her safe arrival, with a very valuable cargo, in thirty two days, from New York. The St. Louis is the first ship that ever came up to that port, and was towed up in *fifty* hours, from New Orleans, by the tow boat *Whale.* Large sums of money were bet in New Orleans that the St. Louis could not be towed up in less than from sixty to one hundred hours, and considerable sums that it could not be done at all. The St. Louis is three hundred and fifty tons burden.—*Cincinnati Com. Dai. Adv., Sept.* 28.

Mail Robbery.—We understand that a man named *Van Sickle*, Post Master at Claysville, in this County, has been arrested on the charge of purloining money from the mail bag, in that place.—We are informed that sums of money have, of late, frequently miscarried, and, in order to the detection of the thief, a snare was set by the agent, or agents, of the Post Office Department, which has resulted, no doubt, in the detection of the offender. It is said the unfortunate man confessed to one offence, but stoutly denies any other. Van Sickle is the individual who succeeded *Christian Weirich*, as Post Master, at Claysville, whom, it will be recollected, committed a similar crime, for which he was sentenced to *twenty one years* imprisonment, in the Western Penitentiary. Van Sickle sustained an excellent character for honesty, and was highly esteemed as a citizen and officer. He is the father of several interesting children, and the husband of an amiable wife. He is now in confinement in the Jail of this County.—*Williamsport (Pa.) Patriot, Sept.* 30.

Extraordinary Product.—An experiment has lately been made on salt water, obtained at the Messrs. Preston's Salt Works, on Holston River, which exhibited the following result. Twenty buckets full (sixty seven gallons) of the water was put into a boiler, which evaporated in four hours, leaving a deposit of five bushels salt, weighing one hundred and fifty one pounds. This experiment shows that the bulk of salt is in proportion of one fourth to the water in which it is held. It is thought that there is known no water which approaches this in strength. There is not the slightest quantity of bittern or other foreign matter found in it. The supply of this water, is equal to the manufacture of five hundred bushels of salt in twenty four hours.

The Phantasmascope is a new and excedingly ingenious toy, designed by Professor Plateau, of Brussels, and first introduced into England at the meeting of the British Association at Cambridge. It consists of a seria of cards, which being revolved before a looking glass, reflect the figures of animals in motion with such truth, as to excite not merely astonishment, but admiration.

Extracts from the Baltimore Prices Current and Review of the Market, for the week ending Friday Evening, September 27.

COFFEE—The demand has been quite limited this week, and the transactions in Rio confined to small lots to the trade at 13 cts. for fair quality and 13 1-2 for strong scented, we note sales of about 200 bags at these prices. A lot of 300 bags St. Domingo was sold at 12 1-2 cts. 6 months.

Howard street Flour—The receipts continue light, and the transactions consequently are limited. Sales from stores to a moderate extent, at $6 12 1-2, and of choice brands, at $6 18 3-4 a 6 25. The wagon price rules at $6. Several lots of fine Flour were sold from store at $5 62 1-2.

Wheat—In the beginning of the week, the supply of wheat at market was extremely small; yesterday and to day, however, parcels appeared a little more freely, though the quantity offering is still very limited. Prices do not appear to have changed since last week. We continue to quote very prime reds at $1 16, and other sorts lower as in quality. We quote white at $1 18 a $1 30, for fair to good, and $1 25 a $1 28 for that suitable for family flour.

HIDES—We are advised of the sales of 5,000 Laplata, and of 600 California, on terms not made public; and of 1,000 Chili, at 12 cts. 6 months.

RICE—About 200 tierces were taken this week at $3 25 a $3 50 per 100 lbs. for export. Sales to the trade in small lots at $3 37½ a $3 50.

SPICES—We note sales of 150 bags Pepper at 7 1-2 cts. per lb.

SUGAR—At auction, on Tuesday, a lot of Porto Rico was offered, and 18 hhds. were sold at $10 a $10 95, and 10 bbls. at $9 45—the balance withdrawn. On Thursday, 46 hhds. Porto Rico were sold at $8 75 a 9 50, and 51 hhds. New Orleans at $8 75 a $9 50. We note sales, by private contract, of 10 hhds. Porto Rico at $10, and a few boxes White Havana at $10 50.

WHISKEY—At the beginning of the week, limited sales of copper distilled hhds. were made at 30 cts. per gallon. Since then the demand has subsided, and the price has given way a little. We note sales of hhds., yesterday and to day, at 30 cents. less one per cent., and, in some cases, even at a trifling reduction on this rate. In Howard street, the store price of bbls. is 32 a 33 cts. sales, and the wagon price 28 cents, exclusive of the barrel. The inspections of the last fortnight comprize 58 hhds. and 325 bbls., of which 51 hhds. and 9 bbls. were received from the Susquehanna.

WAGON FREIGHTS—Remain as last quoted, viz: to Wheeling, $2 25, and to Pittsburgh $1 87 1-2 per 100 lbs.—*American.*

ALMANACS FOR 1834

TAYLOR'S MAGAZINE & COMMON ALMANACS;
And Hagerstown German Almanacs—for 1834. For sale by

H. HOLDSHIP & SON,
No. 80 Front street.

Pittsburgh, September 30, 1833.—d2m

NOTICE.

ALL persons indebted to the estate of WILLIAM DIEHL, late of Ross township, deceased, are requested to make payment to the subscribers, without delay—and all persons having claims against said estate, will present them, properly authenticated, for settlement.

CHRISTOPHER MAGEE,
WILLIAM HAYS,
September 30, 1833. *Executors.*

DOCTOR J. B. ROSE,
DENTIST,
(LATE OF REGENT STREET, LONDON,)

RESPECTFULLY informs the inhabitants of Pittsburgh and its vicinity, that he has taken an office, No. 80 Third street, next door to Dr. Burrell, where he performs all operations on the Teeth and Gums, in a style not to be surpassed.

☞ *Natural and Artificial Teeth* set in the best manner, and at the most reasonable charges.—Also—*Porcelain Teeth, from a single one to a whole set.*

On the first appearance of Tarter or Scurvy, Teeth should always be cleansed, as the corrosion of the tarter will, in a short time, reach the roots of the Teeth, and they will eventually fall out—when, by attending to them in season, they might be restored, at a trifling expense, to their original beauty.

The operation of Plugging and Filing the Teeth, when decayed, is so truly important that it is impossible to recommend it too earnestly to the attention of the public. Thousands of the most useful Teeth, which otherwise, on account of their painfulness, would be sacrificed by extraction, may thus be preserved for many years. Doctor R., convinced that he can render benefits beyond all price to those who need his assistance, will wait upon families at their residence, if requested, and Teeth brought to a Pearl White at one sitting.

☞ As Dr. R. intends to remain in town but a short time, as early a call as convenient is advisable.

Dr. R. has for sale the British Antisceptic Dentrifice. This elegant Tooth Wash, with a very little use, eradicates the Scurvy in Gums, and prevents the accumulation of Tarter, which not only blackens, but loosens the Teeth, and accelerates their decay; removes the causes of offensive breath, preserves the healthiness of the Gums, and renders the Teeth beautifully white. Price 50 cents per Bottle.

Public Sale of Real Estate.

IN pursuance of an order of the Orphan's Court, of the county of Allegheny, will be exposed to Public Sale, at the Court House, in the city of Pittsburgh, on Monday, the 21st day of October next, at 11 o'clock, A. M., the following described Real Estate, late the property of Oliver Ormsby, deceased, viz:—

1st. All that certain piece of land, situate in St. Clair township, on the Brownsville road, between 3 and 4 miles from the city of Pittsburgh, now occupied by Mrs. Nelson. This tract contains 49 acres, and 144 perches. There are upon it about 35 acres of cleared land; a substantial hewed log house, two stories high, and a fine bank of coal. It is bounded by land late of Henry Baldwin and others, and is part of a tract formerly owned by Fulton, and which was divided among the said Oliver Ormsby, Henry Baldwin, and William Wilkins.

2d. All that certain tract of land, situate on the south side of the Monongahela river, in Mifflin township, now occupied by Fergus Dempsey and George Ramsey. This tract contains, by the patent, 209¾ acres, and is bounded by land of Johnston Glass, Daniel Reisher, heirs of Robert Hays, Joseph West, and others, and by the river. There are about 150 acres of bottom land on this tract: the well known Ferry, called 'The Six Mile Ferry,' is also upon it. Nearly all the bottom land is cleared. The buildings are as follows, viz: —a log tavern house and barn at the Ferry, and a large frame barn, and a frame dwelling house upon the part occupied by George Ramsey. If desired by purchasers, the tract would be sold in two parts, to be divided by the run.

☞ The titles to these tracts are indisputable.—Any information, respecting the land, or the titles, can be obtained from the subscribers. Terms at sale.

Post Office Delinquency.

ON the 19th of March last, I wrote a letter to Lewis Clapier, Esq. of Philadelphia, which I placed in the Post Office at Saegerstown on the same day, and by information lately received from Mr. Clapier, I find the letter has not reached him. Enclosed with the letter, in a strong envelop, was a patent for donation lot No. 6, containing three hundred acres of land, situate in the first district, now Beaver county, granted by the State of Pennsylvania to Major George Tudor, for services in the revolutionary war, and dated the 5th day of October, 1787. On the back of the patent is a transfer of same by Major Tudor to Walter Stewart, dated the 14th day of February, 1792, and both recorded in the Recorder's office, in Allegheny county, in Deed Book F, page 129, &c. The whole package was directed to Lewis Clapier, Esq., Philadelphia, and the Post Office in Saegerstown on the day first above mentioned, charged the Philadelphia Post Office with the postage thereof, amounting to one dollar twelve and a half cents. This package must have been detained, and most probably purloined, in some intermediate Post Office, and whoever has done it, has not had the honesty to forward it to its place of destination. As the patent can be of use whatever to the person into whose hands it may have fallen, but is of consequence to myself, I will give a generous reward to any one will deliver it to me, or forward it to the Post Office in Saegerstown, Crawford county, Pennsylvania, or to Lewis Clapier, Esq., in Philadelphia.

PERIODICALS.

AMERICAN RAILROAD JOURNAL, and Advocate of Internal Improvements, which is designed as a repository of the accounts of the rise and progress of numerous works of Internal Improvement, in the United States particularly, and in other parts of the world generally. The work is published weekly, and forms a large octavo volume each year, of 832 pages of 3 columns each, for $3 per annum, in advance.

New York Farmer, and American Gardener's Magazine. This work is designed for the agriculturist, and will be found to contain much, both interesting and profitable, to those who cultivate the soil as a business, or merely a garden for amusement. Published in monthly parts of 32 large octavo pages, with three columns each, at $3 per annum, in advance.

Mechanics' Magazine, and Register of Improvements and Inventions. To the Mechanics of the United States---In this populous and enlightened country, almost every description of persons can obtain knowledge and amusement connected with their peculiar pursuits, through the medium of the Journal or Magazine, especially devoted to their interests. The Theologian, the Farmer, the Philosopher, the Sportsman, and even the Plough Boy, has each his Journal, where he can find a record of the passing events of the day, connected with his peculiar avocations and recreations. Hitherto, the Mechanics (who form a large and most important portion of the community) have had no Journal, to which they could turn, with the certainty of finding that information they desire, no periodical of which they could say: 'This is ours, and for us.' In the hope that the attempt to supply such a want at a price so reasonable as to be within the reach of all, will meet with your active support, the subscriber proposes to publish, on the first day of each month, a Mechanics' Magazine. It will contain a well digested selection of the most useful and interesting articles in the London Mechanics' Magazine, London Register of Arts and Sciences, Repertory of Inventions, Library of Useful Knowledge, Journal of the Franklin Institute, and other works, connected with the arts and manufactures, published in this country and in Europe, accompanied with numerous and well executed Engravings. Its pages will be open for the communications of all, and especially for those of the practical artisan, to whose interest it will be particularly devoted. The Mechanics' Magazine will contain, also, a due portion of the occurrences of the month, Scientific and Literary Reviews of Books, Anecdotes, Economical Receipts, Reports of the state of Mechanics' Institutions, and other Scientific Societies in this state and other countries. To be published monthly. Each succeeding number will contain 64 pages, handsomely printed, and stitched in a neat cover. Six numbers will form a volume, for which an index and title page will be supplied, and also a Portrait of some distinguished Mechanic, as a Frontispiece. Terms, $3 per annum, in advance.

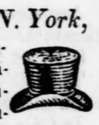
SATIN BEAVER HAT MANUFACTORY,

NO. 6 ST. CLAIR STREET,
PITTSBURGH.

WILSON & SMITH, from N. York,



RESPECTFULLY inform the citizens of Pittsburgh and the neighboring towns, that they have commenced the manufacture of the above beautiful and elegant article, so much admired and worn throughout Europe, and the principal cities in the United States.

W. & S. beg leave to observe, that, after various experiments, they have at last succeeded in bringing this Hat to the highest state of perfection, and they can assert, with confidence, that in point of color, lightness, elasticity, durability, and general beauty of appearance, they cannot be surpassed by the most expensive Hat that is made. Gentlemen are invited to call and examine them, and judge for themselves.

Wholesale Dealers supplied at the same prices as in the New York markets.

DOCTOR ROBERT'S
☞ *WELCH MEDICAMENTUM.* ☜

FOR the cure of Dyspepsia, Liver Complaints, Jaundice, Cholic, Fever and Ague, Dysentery, Headach, Loss of Appetite, Flatulence, Hypochondria, Hysterics, Dropsical Complaints, and Heartburn, It also prevents all Bilious disorders, and removes habitual Costiveness, Asthma, Strangury, Gravel, Rheumatism, Gout, and Impurities of the Blood.

A person who uses this Medicamentum will not require the use of the lancet, or any means of the healing art. It restores and revives the animal spirits, invigorates the system, removes nervous tremors, obtunds rheumatic and anthritic pains, and prevents their return. It cleanses the stomach of all morbid humors, which cause indigestion, acidities, headach, and lowness of spirits; cures all bilious disorders, and all cholics of the stomach and bowels, almost immediately; inspires cheerfulness; gives comfort to the dropsical; takes away palpitation of the heart; gives circulation to the blood; restores bloom to the sallow or sickly cheek, and plumpness to the meagre habit; purges without pain, and banishes all cause of fever of every kind. It acts on the stomach, that great reservoir of the human system, a diseased state of which causes all diseases. No alteration in the usual habits of life is required, but the abstaining from distilled ardent spirits.

CERTIFICATE,
From Rev. Derick Lansing, D. D., Pastor of the Second Presbyterian Church in Utica.
Utica, Jan. 6, 1830.

To Dr. Hitchcock.—Dear Sir: I have always been one of the number of those who have placed little confidence in *nostrums* or *specifics*, and for this reason, although I saw your advertisement of the Welch Medicamentum, I could not bring my mind to consent to use it. My sufferings, from indigestion, during the past summer, were so severe, as materially to affect my comfort, and my capacity for usefulness. I have reason to thank you, sir, that, on hearing of the state of my health, you kindly sent me your Medicamentum. I have taken it faithfully, and with entire success. I have not been visited with one of those turns of distress, which before were weekly periodical, since I began to take your valuable medicine. Could I receive the same relief which I have hitherto experienced, on condition of taking it for life, I should cheerfully comply with such condition. Your's, very truly, D. C. LANSING.

ANTI-DYSPEPTIC ELIXER.

ONE of the most agreeable and efficacious Medicines ever discovered for the permanent cure of those chronic states of derangement of the stomach, constituting that miserable disease called Dyspepsia.

The basis of this Elixer is vegetables, and perfectly innocent in its operation; it destroys that sour state of the stomach, the instant it is taken, and stops the morbid secretion, by giving strength to the muscular fibre of that important organ, by which means the peristaltic motion of the intestines is increased, and the costiveness obviated; a new action is given to the system, which puts an end to a train of distressing nervous sensations.

Another form of the disease in which the Elixer is admirably calculated to relieve, is the decline of fever, where the stomach will not bear the ordinary strengthening medicines indicated in such cases, it has the surprising effect of giving vigor, and restoring the natural secretions of the body, without increasing the febrile state. Not the least danger is to be apprehended from exposure to cold, while under the use of this medicine, nor will it interrupt necessary employment of the patient a single hour.

☞A number of cases of cures performed by the Anti-Dyspeptic Elixer in the vicinity of Pittsburgh can be given.

GEO. W. CARPENTER'S
COMPOUND SYRUP OF LIVERWORT,

A SAFE and Valuable Medicine for Coughs, Spitting of Blood, Consumption, and Liver Complaints.

Most of the medicines made use of for the above diseases are of a stimulating nature, composed generally of Resins and Balsams, in alcoholic solutions, which, although sometimes giving temporary relief, in almost every instance where they are freely used, aggravate the disease, and reduce the strength of the patient.

This article possesses superior advantages over these preparations, its action being of a tonic, invigorating and strengthening nature, thus overcoming the disease by promoting expectoration, and gradually increasing the strength of the patient, and thus, without being attended with any unpleasant effects: it also agrees with the stomach, in a cases, and is a pleasant medicine to take.

PATENT PLANING MACHINE.—The right to use this valuable machine, invented and patented by William Woodworth, and known as Woodworth's Patent Planing Machine, may be obtained on application to the subscriber for the counties of Allegheny, Butler, Beaver, Washington, Green, Fayette, Somerset, Cambria, Indiana, Jefferson, Clearfield, M'Kean, Warren, Venango, Mercer, Crawford, and Erie, in the State of Pennsylvania. That part of Maryland lying west of the Blue Ridge; all that part of Virginia lying west of the Blue Ridge, except the county of Ohio. The whole of the state of Ohio except the counties of Hamilton, Butler, and Montgomery. The whole of the state of Kentucky, except the counties of Jefferson, Boone, Oldham, Gallatin, and Campbell. The whole of Indiana, except the counties of Floyd, Clark, Jefferson, Dearborn, and Switzerland. The whole of the state of Illinois, and the territory of Michigan. Rights to use the machine in that part of the United States, named above, will be sold by the single county or in larger districts. As it is presumed that no one will purchase without seeing the machine at work, a description of it is deemed unnecessary. Should any person, however, wish to purchase, and find it inconvenient to visit the places where it is in operation, a machine will be furnished, warranted to plane, tongue and groove, and bring to an exact width and thickness, a white pine board of 12 feet long, and of any width from 1 to 14 inches, in one minute and ten seconds, or an oak board of the same dimensions in 2 minutes and 10 seconds. Machines may be seen at work in the cities of New Orleans, Washington, Philadelphia, New York, Boston, and others at the south and east, at Wheeling, Virginia, and at the saw mill of Messrs. Irwin & Herron, in this city.

Persons desiring to purchase will have the certificates of scientific and practical men who have seen it at work, in the different places in which it has been put up, forwarded to them. They give their opinion as to the great value of the invention, state the time they have seen boards dressed by this machine, and describe the quality of the work as compared with that performed by hand labor.

VALUABLE PROPERTY FOR SALE.

THE Subscriber offers for sale the farm on which he lives, in Washington county, on Pigeon creek, one mile south of Williamsport, on the Monongahela river, to which there is a perfectly level road. This farm contains near 400 acres, the greater part of which is first rate land. There is on the premises a Brick Dwelling House, a Merchant mill, in good repair, a new saw mill, a stone still house, 35 by 40 feet; a salt works is also in operation, and worked to advantage; about 150 acres of land cleared and under good fence. There is on the premises three small tenements for the accommodation of families. This tract is well timbered, and abounds with stone coal and springs of water, both of the best quality.

To a person wishing to embark in a manufacturing business, and possessing capital, this would be a very desirable situation, having the advantage of both water power from Pigeon creek, and banks of the very best coal near to the works, and easy of access, and its vicinity to so navigable a river where articles of any kind are so cheaply transported to Pittsburgh.

For further particulars, apply to James P. Stuart, Merchant, Wood street, Pittsburgh, or to the subscriber on the premises.

TYPE FOUNDRY.

HAVING purchased of Mr. Richard Ronaldson, his long established and very extensive Type Foundry, the subscribers have formed a co-partnership for the purpose of continuing said business, and for the convenience of their friends and patrons, have removed their establishment to a more central part of the city. As it is their intention to keep on hand a good assortment of the best type, and to make such additions and improvements as the taste of the trade and the wants of the country require, they flatter themselves that this establishment will merit a large share of patronage. They have now several founts on hand, which can be furnished at a few hours' notice, and are prepared to make founts of all weights and sizes, from Pearl to 22 lines Pica, including a variety of Ornamental Letter. Their assortment of Cuts, Dashes, Brass Rule, and other Ornaments, will be found to be very extensive, of which specimens will be forwarded to Printers as soon as they can be prepared.

Printing Presses of every description, Printing Ink of the most approved qualities, Composing Sticks, Brass and Common Galleys, Chases, Imposing Stones, Cases, Paper and Press Boards, Standing Presses, Furniture, together with a complete assortment of all articles used in a Printing Office, will be kept constantly on hand.

Small founts, suitable for Book Binders, in great variety, may be had when called for.

Orders from all parts in the Union will be promptly and most carefully attended to, and particularly in supplying *sorts* for all founts furnished by their predecessors, Binny & Ronaldson, and Richard Ronaldson.
